

Central Coast Regional Water Quality Control Board

Water Board Announces Workshops for Salt and Nutrient Management Plans

FOR IMMEDIATE RELEASE

February 22, 2010

**Contact: Harvey Packard
805-542-4639**

The Central Coast Regional Water Quality Control Board will hold two workshops with stakeholders to discuss development of regional salt and nutrient management plans. Times and locations are as follows:

Wednesday, March 3, 2010, 1:30 p.m.
Santa Maria Public Library, Shepard Hall
421 S. McClellan Street, Santa Maria

Wednesday, March 10, 2010, 1:30 p.m.
Monterey Regional Water Pollution Control Agency
Regional Treatment Facility, Marina
(map and directions here: http://www.mrwpc.org/about/rtp_map.html)

The Water Board is inviting all water and wastewater agencies, salt/nutrient contributing stakeholders, and interested persons to attend.

The State Water Resources Control Board's Recycled Water Policy requires salt and nutrient management plans for each groundwater basin within the region. The workshops will provide information and tools to participants to help them coordinate and begin development of the plans.

The Recycled Water Policy can be viewed here:

http://www.waterboards.ca.gov/water_issues/programs/water_recycling_policy/docs/recycledwaterpolicy_approved.pdf

The Central Coast Water Board is responsible for protecting and restoring water quality in the 300-mile-long coastal region from southern San Mateo and Santa Clara Counties to the northern part of Ventura County.
